

Production Guardian

AI-Powered Production Health & Optimization for Health Connect

Your AI operations expert that continuously monitors, analyzes, and optimizes your Health Connect productions—so your integrations run at their best, every day.

Eight intelligent capabilities. One healthy production.

The Production Guardian Advantage

Proactive Protection

Identify and prevent issues before they impact your business.

Faster Resolution

AI-driven insights and automated fixes reduce MTTR dramatically.

Better Performance

Continuous optimization keeps your production running at peak.

Operational Excellence

Empower your team with expert guidance available 24/7.

Trust & Reliability

Maintain high availability and deliver trusted integrations every day.

Healthy productions. Happy teams. Better outcomes.

Production Guardian is built natively for InterSystems Health Connect and designed to help you get the most from your investment.
